

GEORGE W. MAXWELL  
well-known trapshooter  
"I find relaxation and complete enjoyment in Tuxedo. It's a nerve steadier and a sure fire, slow burning tobacco. Easily my favorite."

TOM A. MARSHALL  
famous trapshooter  
"Tuxedo tobacco is unquestionably the acme of perfection; smoking Tuxedo makes life better worth living."

FRED GILBERT  
the celebrated trapshooter  
"The coolest, most fragrant, most pleasant tobacco in my experience—Tuxedo. Leads in mildness and purity."

## Quick on the Trigger With a Snap-Shot Eye

THE crack trapshooter has to be a man with steady nerves and muscles absolutely under control—always ready, at the sudden jerk of a string to swing his gun into place and bring down his clay pigeon. This means trained, not to the minute, but to the split-second. He takes no chances with his nerves.

We present the names of some of these crack shots who smoke Tuxedo: They like to smoke; but they take no chances on a tobacco that might "throw them off."

# Tuxedo

The Perfect Tobacco for Pipe and Cigarette

is purposely made to give you all the benefits of the highest grade smoke. It is made from the very finest tobacco Kentucky grows—ripe, mellow, sweet and mild old Burley, aged right up to perfection-day. Then treated by the original "Tuxedo Process," which takes out the sting, makes Tuxedo smoke cool and slow, and guarantees that it cannot bite your tongue.

Tuxedo has had many imitators; none has ever equalled it in sheer quality and smoking-value.

## MAYSVILLE HEALTH CONDITIONS

Shown in Report of Miss Casey, Health Nurse—45 Cases of Tuberculosis Registered.

A report for the months of February, March, April and May made by Miss Anna M. Casey, visiting health nurse, gives a number of 61 patients on her sick list. At present there are 45 cases of tuberculosis in the city and eleven deaths have resulted during these months from the same disease. Miss Casey has made 789 visits during the time mentioned—a wonderful record full of credit for her—as is shown in her report, which is as follows:

### Report of Mason County Health League

From February 1 to May 31, 1914.  
Patients listed February 1... 54  
New... 53  
Births... 2  
TOTAL... 109  
Discharged... 77  
Deceased... 11

REMAINING... 61

There are 45 cases of tuberculosis of lungs registered, and 11 deaths from same cause.

Number of sick calls... 443  
Number of Metropolitan calls... 114  
Number of School calls... 38  
Number of Business calls... 66  
Number of Miscellaneous calls... 128

TOTAL... 789

The number of calls only gives a faint conception of the amount of actual work done. Houses and school houses have had to be sealed and fumigated. Regular routine work has had to be neglected on account of the great inroads upon time caused by pneumonia and preventive measures against the scarlet fever and small pox epidemics.

The City Council has been very generous in the supply of food for families quarantined. The Board of Health has expressed appreciation of the assistance given by the League. The City Mission has rendered valuable assistance in providing clothing, and promised to assist in defraying the expenses of the Nurse for the children in camp.

Cot and mattress was supplied Besie Davis, a tubercular patient. The City Council provided blankets for use on sleeping porch arranged for tubercular patient during the winter months. Many other courtesies and deeds of helpfulness have been greatly appreciated, and we would like to mention every one individually who has offered the helping hand, but time and space will not permit.

The Dispensary has taken care of 24 patients and 49 examinations and appropriate prescriptions given. The physicians have been untiring in their efforts, and have been prompt and kind to all who have applied for help. We want to see this part of the work grow, and be a means through which the sick poor may regain their health.

MISS ANNA M. CASEY.

## NEW AUTOMOBILE LAW.

As there are so many automobiles owned and operated in this county we think it proper to give a synopsis of the new law, which is now in effect:

The law forbids the driving of any vehicle at a speed greater than is "reasonable and proper." The following are limits placed as "reasonable and proper," any greater being prima facie evidence of unreasonable and improper speed: In closely built-up section of incorporated cities ten miles an hour, in residence districts fifteen miles an hour; highways outside of the business and residence sections twenty miles an hour. On a curve, corner or crossing, where the operator's view is obstructed, eight miles an hour is the limit.

A driver must come to a full stop in passing a frightened horse or near a street car taking on or discharging passengers. Any city may, however, pass traffic laws that place the speed limits lower than the statute. Some of the law infractions and their penalties are:

Fine of \$10 for fictitious chauffeur's badge.

Fine of \$15 for employer of unlicensed chauffeur.

Fine of \$10 for unlicensed chauffeur.

Fine of \$15 to \$50 for intoxicated operator of motor vehicle.

Fines of \$15 to \$100 for use of fictitious automobile licenses.

Fine of \$15 to \$100 for person under 16 years who drives car without parent or guardian.

Cancellation of vehicle license for owner who fails to report discharge of chauffeur because of drunkenness.

Two to five years in the penitentiary for taking machine without owners consent.

Forfeiture of chauffeur's license on conviction for drunkenness.

Fine of \$10 to \$50 for violation of any action not specially enumerated. This may be augmented by five to thirty days in jail.

The new license prices follow:

For vehicles of twenty-five horse power or less \$8; between twenty-five and fifty, \$10, and above fifty horse power, \$20. A motorcycle registration fee is \$5.

The examination for chauffeurs to establish their right to license are to be held as follows:  
Louisville, first Monday in February; Maysville, first Monday in April; Bowling Green, first Monday in July; Paducah, first Monday in September, and Covington, first Monday in May.

Until then the commissioner of motor vehicles at Frankfort will have the right to issue licenses.

## Pimples Removed

With our Saxo Salve

Amherst, Ohio.—"I had a pimple on my face which grew until it was as large as a silver dollar. Doctors said it would have to be cut out and when my druggist asked me to try Saxo Salve, I made fun of him but did so, and it entirely cured me. I cannot say enough in praise of Saxo Salve."—M. R. CRANDALL, Amherst, O.

If we can't cure your skin trouble with our Saxo Salve and Saxo Soap we will buy back the empty tube.

John C. Pecor, Druggist, Maysville, Ky.

## Public Sale

We will sell at Public Auction a p. m., Saturday June 20th, the Suburban home of Mr. D. A. Emmett, located the Maysville and Germantown turnpike just outside the city limits. It is a nice two story frame house, seven rooms with halls, bath and w.c. in the house, also small house on corner of lot that rents to good advantage together with about two acres of land. There is a variety of fruit of all kinds on this place. A splendid place for a chicken raising and truck garden. Mr. Emmett has bought a farm moved his family to it, and has decided to sell this very desirable home, the extension of the street car line the West End, and the many improvements that are going on in this section of our city, we think we can see a fine opportunity for an investment in the West End property. This home will be sold or easy terms which will be announced on day of sale. Here is your chance to buy a nice home at your own price.

## THE PRACTICAL PHILOSOPHER.

(American Machinist.)

The new ideals of management-engineering may be summed up in three sentences: Take nothing for granted; see that every effort is adapted to its purpose; cultivate habit.

Criticism is one of the necessities of progress and though the engineer perhaps thinks he gets an unfair share of it, yet it is an essential to the continued well-being of his profession.

It is surprising how one forms unfavorable impressions of men one has never seen, simply from the uncompromising remarks of traveling men who think they have been abused by those fellows.

Before condemning a file it is as well to consider the ability of the man using it. Pa filing shafts hold the tool at an angle of 15 deg. and the best results will be obtained.

New tools are simply the logical outcome of the old. In past years some kinks and difficulties have been straightened out and we now, in the machine-building field, reap what our forefathers sowed.

In the use of sapphire tools the most important factor to be considered is their shape; the clearance, if maximum service is to be expected, must be curved, not angular, and should be very small in amount.

## POLICY OF SQUARE PROTECTIONISM

It is Policy for the Whole Country—National and Not Local in Its Scope.

Monmouth (Ill.) Atlas.

No promise was ever made by the Republican party to revise downward the Tariff schedules of this nation, and they should never be revised downward with the increasing costs of production in this country. Tariff schedules which affect industry and the farm in America should be revised upward if the standard of living in America shall be further increased. No greater condemnation can be made of the Progressive platform today than the fact that it advocates the downward revision of the Tariff. Do the farmer readers of the Atlas think their schedules were too high?

The Democratic party may be trusted to revise the Tariff downward. It has done so. The results are fast becoming known to the American people and especially to the 5,000,000 or more American industrial workers who have been forced from the factories of the nation.

The Republican party stands firmly and unreservedly for Protective Tariff. The voters are endorsing that policy; the elections which have been held since 1912. And they have been even more strongly endorsing that policy since the enactment of the new Underwood Tariff bill.

The Republican organization of today is led by men who fear no policy so much as that which seeks a downward revision of the Tariff on farm products. The men who live in the cities are just as strong for the Protection of the products of the farm as those who live in the rural districts. The men who live in the rural districts are just as anxious to see Protection for the products of the factory as are those who live in the cities where the factories are located.

The factories and the farms today are suffering because of the men who claim the Protective policy as their political faith, and yet who deny and vote against their political faith when the product to be protected is not that produced in their own home district.

## WOMEN WATCH THE CLOCK

in our stores and factories for that blessed hour when the day's work ends. The reason is readily seen, as the nature of their duties too often drifts them into the horrors of all kinds of organic troubles peculiar to women, causing backache, headaches, nervousness and irritability. Lydia E. Pinkham's Vegetable Compound, a simple remedy, made from roots and herbs, may be relied upon to overcome these troubles.

## WHEN TRAVELING

one often needs a refreshing 'nip' and you can't always get it good on the road. Take a bottle of our famous Rye Whisky with you and you will be well protected for the journey—whether it be by land or water. This is the finest Whisky ever distilled and is perfectly pure and wholesome, and is recommended by physicians to their patients.

## COURT HOUSE LEVY

In Bracken County Knocked Out By Court of Appeals.

The Bracken Fiscal Court, which entered into a contract in February, immediately following the enactment of the first measure passed by the 1914 General Assembly, providing for a sinking fund for the construction of county buildings, for spending \$42,120 on the Bracken Court House, and levied a tax of 10 cents in addition to the 50-cent county levy, lost on the appeal of S. W. Bradford, a taxpayer to enjoin the 10-cent levy.

The Court of Appeals, reversing the case, said the Bracken Circuit Court should make the injunction permanent, and the Constitution forbids a levy of more than 50 cents without an election, and likewise forbids contracting debts beyond the anticipated annual revenue, notwithstanding the act of 1914.
